## SUMMARY

Full Stack Web Developer with expertise in MERN, React (Vite), HTML, CSS, JavaScript, PHP/Laravel, C#, ASP.NET Core MVC, Node.js, and SQL/MongoDB. Experienced in building scalable web and mobile applications, supported by strong UI/UX design skills using Figma and Canva. Also skilled in office automation and workflow optimization. Focused on delivering intuitive, high-quality digital solutions.

## SKILLS

**Frameworks:** ASP.NET Core MVC, Laravel, Angular, React (Vite), MERN

**Languages:** PHP, C#, Dart, JavaScript, HTML, CSS, R Programming

**Databases:** MySQL, SQL Server, MongoDB, Firebase

**Tools:** Git, Figma, Crystal Reports, Canva, Swagger

## EXPERIENCE

### .NET Core Developer

*TechnoCom Development*

October 2024 – Present

*Karachi, Pakistan*

- Currently working on the enhancement and maintenance of cloud-based applications, contributing to feature updates and performance optimization to deliver reliable, scalable solutions.
- Collaborate with senior developers to implement new functionalities, integrate RESTful APIs, and adopt emerging technologies for building modern, efficient applications.
- Participate in code reviews and apply software engineering best practices to ensure code quality, maintainability, and adherence to industry standards.

## DEVELOPMENT JOURNEY

### FreshShop E-commerce – ASP.NET Core MVC, SQL Server

- Developed a full-featured e-commerce platform with advanced product search and filtering, secure shopping cart management, payment processing integration, and a comprehensive admin panel for inventory control and order management.

### Student Portal Clone – APTECH Garden Center – Laravel, PHP, MySQL

- Built a dynamic student management system with role-based authentication for students, teachers, and administrators, featuring real-time attendance tracking, exam marks management, and automated report generation.

### MERN Fitness Tracker – MongoDB, Express, React, Node.js

- Created a full-stack fitness tracking web application with secure user authentication, personalized workout planning, cardio activity logging, and interactive data visualization using charts and graphs for progress monitoring.

### Green Living Hub – Flutter, Firebase, Dart

- Designed and developed a cross-platform mobile application promoting sustainable living with an integrated carbon footprint calculator, community engagement features, Firebase authentication for secure user management, and real-time data synchronization using Firebase Realtime Database.

### RESTful API with Token Authentication – ASP.NET Core MVC, SQL Server, Swagger

- Architected a secure RESTful API with time-sensitive JWT token generation, module-specific access control for granular permissions, and comprehensive Swagger documentation for seamless API integration and testing.

## EDUCATION

### ADSE (Software Engineering) Diploma

*Aptech Computer Education, Garden, Karachi*

2023 – 2026 (In Progress)

### Intermediate in Commerce

*Government College of Commerce & Economics, Karachi*

2023

### Matriculation in Computer Science

*The Smart School, Garden West Campus, Karachi*

2021

## CERTIFICATIONS

ADSE – Advance Diploma in Software Engineering (In Progress)

TestDome SQL Server Certification – December 2024

ITRONIX Solutions SQL Server Training – December 2024

Google Soft Skills Program – December 2024
